**Affordable power**  
for the busiest office

Fuji Xerox Printers

**Phaser® 8560**  
**Phaser® 8560MFP**

*Solid ink is environmentally-friendly. It generates 1/10th the waste of a typical colour laser device.*

# A colourful choice...

Fuji Xerox offers a choice of value-packed office devices that deliver the utmost in productivity: The **Phaser 8560** printer gives busy workgroups a fast, affordable, easy-to-use colour printer that can expand from a desktop model to a four-tray, floor-standing powerhouse; the **Phaser 8560MFP** multi-function printer adds top-of-the-line copying, scanning and faxing for all your office document needs.

## Outstanding colour

The **Phaser 8560** printer and the **Phaser 8560MFP** multi-function printer give you precise details, and rich and vibrant colours.

- Count on superior output on everything from cover stock to recycled paper. Confidently handle colour projects in-house. Thereby reducing costs and increasing efficiency.

- True Adobe PostScript 3 and automatic colour-enhancement tools ensure that colour-intensive documents print reliably and accurately.
- Produce fast and versatile prints for everyday jobs. When you really want to impress, switch to 2400 FinePoint print resolution mode.
- Nothing else on the market offers more consistent and vivid colour. The last page of a large print job looks as good as the first.

*Go ahead and get creative. Print on business card stock, postcards, labels, transparencies and more. You can expect the same brilliant output regardless of media used.*

# print print copy scan fax

## Phaser 8560

### A colour printer that meets the challenge

The **Phaser 8560** printer delivers fast, attention-grabbing results.

- Pick up the pace with a first-page-out print time as fast as 5 seconds. Both black-and-white and colour print at up to 30 ppm.
- A 600 MHz processor and 256 MB of memory (upgradeable to 1 GB) provide the muscle you need for the most intense projects.
- Put off reloading paper, or swapping one size for another, with a combined paper-tray capacity of 625 sheets — a huge stack of paper for a device that sits on a desktop. Add third and fourth trays to increase capacity to 1,675 sheets.
- Handy productivity printing tools are standard plus the affordable add-ons: job accounting, booklet printing, image smoothing and many more.
- Automatic two-sided printing saves time and reduces paper costs.

## Phaser 8560MFP

### Multiple functions, no waiting

The **Phaser 8560MFP** will tackle your workload with an array of time-saving tools:

- Access walk-up copying, scanning, or faxing functions when you need them, even while other jobs are printing. Spend your valuable time working, not waiting for your turn.
- See the first page of your copy job in as fast as 15 seconds and the first page of your print job in as fast as 6 seconds. Print black-and-white and colour at up to 30 ppm.
- Gather all those loose paper documents and scan them straight to your desktop, or to a public or private folder. Organise, edit, and distribute files with powerful onboard scanning tools.
- LAN Fax allows you to send faxes directly from your PC.
- An array of productivity tools for all functions is standard.

### Superior design and ease of use

Large paper trays let you print more without interruption.

- 100-sheet Tray 1 for a wide range of custom media and sizes
- Generous 525-sheet Tray 2
- Add one or two 525-sheet trays
- for a total capacity of 1,675 sheets

## An ace up your sleeve: Scanning tools

Use the power of scanning and your **Phaser 8560MFP** to efficiently organise, edit and distribute information.

- Scan documents straight to your desktop. Edit them now or store them for access later.
- Scan documents to a public folder. This gets them off your desktop and makes them accessible to anyone.
- Scan documents to password-protected private folders. This allows central storage but with restricted access.

## Scan to PC Desktop software

Plus, a valuable scanning software (optional)

**Convert:** Quickly convert paper and PDF documents into editable and searchable digital documents supporting Microsoft Office applications, with accurate page layout and format.

**Organise and share:** Quickly and easily scan, annotate, or archive documents in PDF file format. The PDF files can be viewed, accessed and arranged via large, clear thumbnails on the desktop and shared with a simple drag-and-drop.

## No-fuss productivity

A simple, cartridge-free design and a host of helpful features make these devices easy to set up, operate and share.

- Streamlined, automated driver installation gets your device up and running in minutes.
- Replenishing ink is as easy as reloading a stapler. There's no mess to clean up and no bulky boxes to store.
- PrintingScout technology monitors your print projects. If a potential issue arises, a handy pop-up alert suggests a remedy.
- Manage, configure and monitor print jobs directly from your computer thanks to the CentreWare IS Embedded Web Server.
- Built-in security tools (optional on Phaser 8560 printer, standard on Phaser 8560MFP) keep your data safe. Secure Print holds hard-copy output until a PIN is entered, and Hard Drive Overwrite "shreds" data after every job or on request.

*A monthly duty cycle of 85,000 pages (170 reams of paper) guarantees long-lasting reliability and quality for your busy workgroup.*
